PROFESSIONAL SUMMARY

Software developer with a Higher Technical Degree in Computer Science and experience in Python and Django backends, process automation, large-scale web scraping, and server administration. Builds scalable web platforms, automated data pipelines and desktop integrations, plus native Linux tooling in C/C++ with Vulkan and GLSL.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, C, C++, HTML5, CSS3
- **Frameworks & APIs:** Django, Flask, FastAPI, React, HTMX, Tauri, REST APIs
- **Databases:** PostgreSQL, MySQL, SQLite, MongoDB
- **Scraping & data ingestion:** Requests, BeautifulSoup, Scrapy, Selenium, Pandas, entity-relationship modeling
- **Infrastructure & systems:** Git, GitHub, GitHub Actions, Docker, Linux (Fedora, Arch), Vulkan, GLSL, Meson, local SLM/LLM deployment

PROFESSIONAL EXPERIENCE

Web Developer

Clin Media | 01/2025 - 06/2026

- Designed, developed, and deployed multiple functional and optimized websites using the WordPress CMS within the Kit Digital program.
- Managed technical administration of servers and websites, implementing security fixes and updates based on direct client feedback.
- Ensured responsive design standards, page load speed optimization, and production-level performance.

Freelance Software Developer

Self-Employed / Fiverr | 01/2024 - Present

- Opportunity tracking platform (bidWebsite + bidsScraper): automated extraction from official procurement portals, data normalization and storage, and email notification to registered users, running daily via GitHub Actions. Django and Tailwind site with user registration and email activation.
- E-commerce platform (Moeka.store): decoupled architecture with React on the frontend and Django on the backend, integrating payment gateways and SEO optimizations. (06/2024 - 12/2024)

PERSONAL PROJECTS

- **flow-gemini-assistant** — AI assistant plugin for Flow Launcher: integrates the Google Gemini API with multi-model support, fast queries and a modular architecture. github.com/Axforzi/flow-gemini-assistant
- **flow-musicbee-controller** — Flow Launcher plugin that drives MusicBee: instant library search through high-performance XML parsing. github.com/Axforzi/flow-musicbee-controller
- **mangoverlay** — In-game overlay for lossless frame generation on Linux (Vulkan); a MangoHud fork in C, C++, GLSL and Meson. github.com/Axforzi/mangoverlay
- **SoundPlus** — Full-stack music streaming: Django, HTMX, PostgreSQL, Cloudflare R2 and Docker. github.com/Axforzi/soundPlus
- **fromJapan** — Anime, manga and light-novel catalog with search and an admin panel: Flask, MongoDB and AniList. github.com/Axforzi/fromJapan
- **gameScraper** — Video game data at scale: Python, Scrapy, Flask, PostgreSQL and MySQL. github.com/Axforzi/gameScraper
- **novelScraper** — Web novel extraction and conversion to EPUB and PDF using Selenium. github.com/Axforzi/novelScraper
- **Telegram Bot** — Telegram bot for downloading YouTube audio and video. github.com/Axforzi/telegramBot

EDUCATION AND CERTIFICATIONS

Higher Technical Degree in Computer Science | Instituto Universitario de San Francisco

Higher Technical Degree in Graphic Design | Instituto Universitario de San Francisco (SIEX)

High School Diploma in Sciences | Instituto Universitario de San Francisco
